

CITIES Workshop - Invitation

Modelling energy supply and demand in the CITIES project

Place:

Wednesday 25th November 2015 at Energinet.dk, Tonne Kjærvej 65, DK-7000 Fredericia

You are kindly invited to this CITIES workshop – please find attached the agenda.

Main topic of the workshop is the modelling of energy demand (CITIES WP1 and WP3) and supply (WP2) looking at different modelling approaches applied in CITIES (WP1, WP2, WP3 and WP6) and including also market aspects (WP4).

When you look at the agenda you will find that the morning is dedicated to short relevant updates of ongoing work in CITIES, whereas the afternoon is reserved for discussion of 3 questions of importance for energy system modelling. **Your participation and contributions would be highly welcomed.**

Please confirm your participation in an email to alpe@dtu.dk latest Friday 20th November eob.

We sincerely look forward to seeing you at Energinet's premises Tonne Kjærvej 65, DK-7000 Fredericia, on Wednesday 25th November 2015 starting at 9 am.
