

WP3 - Internal meeting on Flexible Buildings

19 August 2015

PhD student *Panagiota Gianniou*, DTU Civil Eng.

Assoc. Prof. *Alfred Heller*, DTU Civil Eng.

Prof. *Carsten Rode*, DTU Civil Eng.

Objective

- Energy flexibility in buildings is quite a broad topic. This meeting aims at covering some issues related to energy flexible buildings including building models, load shifting potential, thermal mass etc.
- The participants will have the opportunity to present some detailed findings of their work, get some valuable feedback, discuss and exchange expert knowledge.
- The meeting is addressed in a very closed circle of researchers coming from DTU, AAU and AU working on the energy flexibility topic, so that details of models and specific findings can be analysed.

Draft Agenda

09:00-09:40 Input from DTU group

09:40-10:30 Input from AAU group

10:30-10:40 Break

10:40-11:10 Input from AU group

11:10-12:00 Discussion

Participants

Participant	Company	E-mail	Skype
Pierre Vogler-Finck	Neogrid	pvf@neogrid.dk	
Jerome Le Dreau	Aalborg University	jld@civil.aau.dk	
Per Kvols Heiselberg	Aalborg University	ph@civil.aau.dk	
Anna Joanna Marszal	Aalborg University	ajm@civil.aau.dk	
Iker Diaz de Zerio Mendaza	Aalborg University	idm@et.aau.dk	
Steffen Petersen	Aarhus University	stp@eng.au.dk	
Michael Dahl Knudsen	Aarhus University	mdk@eng.au.dk	
Theis Pedersen	Aarhus University	thp@eng.au.dk	
Rasmus Elbæk Hedegaard	Aarhus University	reh@eng.au.dk	
Peder Bacher	DTU Compute	pbac@dtu.dk	
Panagiota Gianniou	DTU Civil Engineering	pagian@byg.dtu.dk	
Alfred Heller	DTU Civil Engineering	alfh@byg.dtu.dk	
Carsten Rode	DTU Civil Engineering	car@byg.dtu.dk
